Eye Candy 4 Gradient Glow Fat Preset

tutorial url : Design Kaboodle.com

https://designkaboodle.com/blog/psp-help/candy-gradient-preset/

It has been pointed out to me that some people has the basic preset Fat Preset missing in Eye Candy 4 Gradient Glow ... so if you do not have it this is how to make the preset & save it

Making The Preset :

Go to Eye Candy inside PSP

1: Go to setting / press reset to factory default

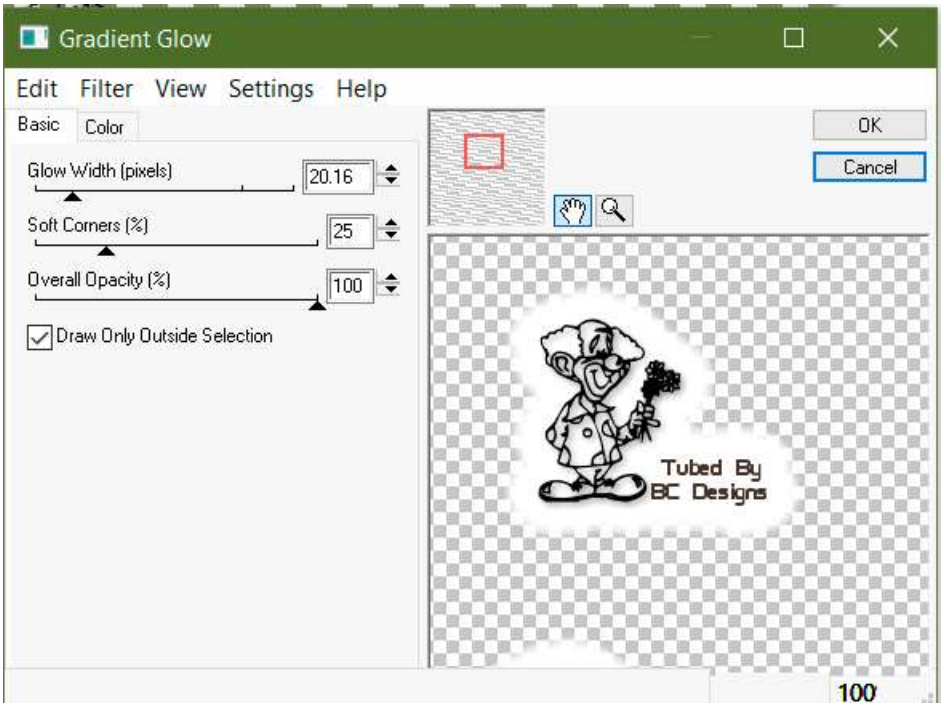
in the Basic button tab you should have these setting (click image thumbnails for better view)

Glow Width : 20.16

Soft Corners: 25

Overall OPacity: 100

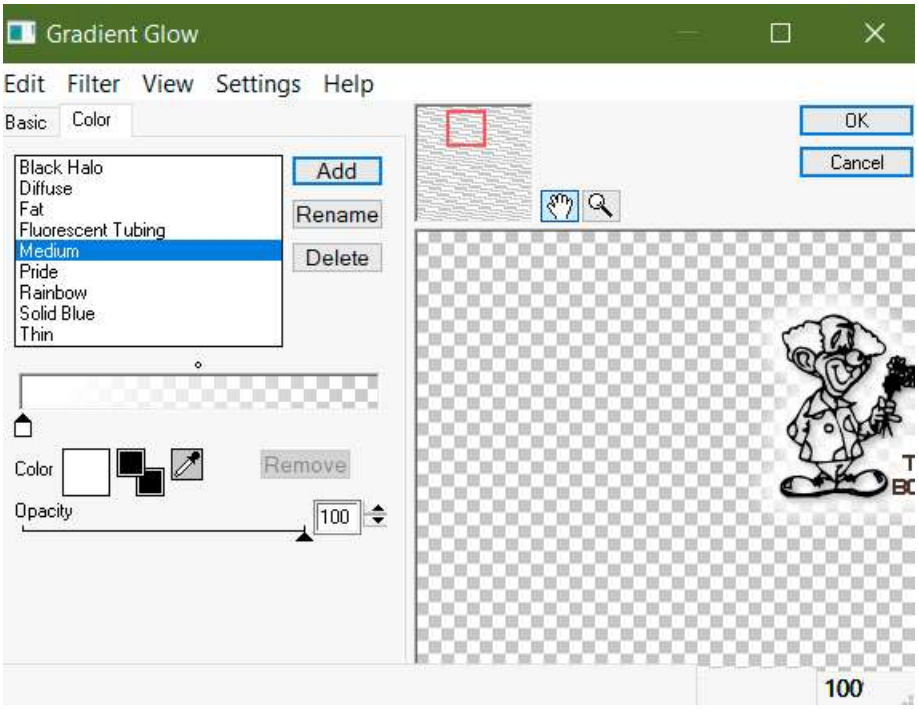
Draw Only Outside Selection Checked Mark



2: Under The Color Tab :

You will see a white box with different preset options pick medium

Pick the color you want (Default is white you can change this later)



3: Still Under the Color Tab

You will see a paint can you might see only one .. (images above) if you only have one make another paint can How to : If you click the paint can & move it ... it makes a new one.

Just click the paint can you just made and move it toward the right to match mine below ... You should now only have two cans.

4: if you make a mistake or make to many paint cans just press the paint can you want deleted & press the Remove button below beside Color box

5: Set the Opacity to 100

Saving The Preset :

You are done making the preset lets save it now .. there is two ways to save in Eye Candy Gradient Glow but I am not sure which way you need to Save it so let's save both ways.. to be sure it is saved

6: Go to Settings under the Color Tab and press Save / & call it Fat or what ever you want ...

7: (I think this is the one you want but not sure)

Under Color Tab you will see three buttons Add, Rename , and Delete ... Press Add and name It you can call it Fat or What ever you want .. you should see it in the list in the white box

t should now show the preset in Eye Candy in PSP. & In your Eye Candy 4 Plugin Folder Alien Skin\Eye Candy 4000\Eye Candy 4000 Settings/Gradients or Gradient Glow Folders,

It should now show the preset in Eye Candy in PSP. & In your Eye Candy 4 Plugin Folder Alien Skin\Eye Candy 4000\Eye Candy 4000 Settings/Gradients or Gradient Glow Folders.
