Paint Shop Pro DLLS

Bev's Tutorial

Tut Url :<http://designkaboodle.com/blog/psp-help-tutorials/paint-dlls-downloads>

you can download the DLLs Windows XP, Vista, Windows 7-10 DLLs the downloads are listed in the tutorials at the blog

PSP Users: you must install Plug dlls to make plugins work .. when installing them you **must not delete or overwrite/replace dlls** if they are already there in the location because Windows might have update the dlls when you update your computer last time .. just add them if they are not there Windows will tell you if they are already there

Be Sure you have your Windows Updates updated before adding DLLs and to reboot Computer after install the DLLs . and before re-opening PSP

Optional: I do this put a copy of the Mscrvt.dll and the Plug in .dll in the base (main/root)) of your plugin folder I put my plugins in special root folder in my documents area and not in the pso folders My Documents /Documents/Plugin ...but that is my thing though they use to tell us in the MSN groups when learning PSP to put a extra copy of the Mscrvt.dll and the Plug in .dll in the root folder of the plugins and I still do after all these years .

Computer Versios :

Windows XP Users =

Windows XP and Earlier Windows Users = Put all 4 in Systems32 folder =

Locaton : Desktop Icon My Computer /C: / Windows/System32

Windows Vista Users =

Put all 6 in the folder Windows/Systems folders Windows/Systems32 or SysWow64 folder=

Location:

Windows Vista 32 bit= Desktop Icon My Computer /C:/ Windows\System32 folder

Windows Vista 64 bit Desktop Icon My Computer /C:/ Windows\SysWow64 folder

Windows 7-10 Users =

download works for both 32 and 64 bit

Put all 10 in in your Windows/System folders Windows/Systems32 or SysWow64 folder=

Windows 7 &10 (32 bit) put them in Windos System/32 folder

Location :

Desktop Icon My Computer /This PC /C:/ Windows\System32

Mscrvt.dll and the Plug in .dll For Windows 7 & 10 (64-bit) put Windows/ SySWow64 folder

Location:

Desktop Icon My Computer /This PC /C:/ Windows/ SysWOW64
